PROFESSIONAL SUMMARY

As a seasoned Microsoft 365 consultant with over a decade of experience, I bring a variety of expertise in migration, implementation, automation, and configuration projects across diverse industries.
A proven track record of leading cross-functional teams, developing comprehensive project plans, and ensuring seamless communication with stakeholders. Strong technical and functional consulting skills, combined with ability to manage projects and deliver results under pressure.

Netherlands: Interested in projects in short and long term. (Freelance/ZZP'er)
Taiwan: I'm eligible for applying for Alien Resident Certificate (ARC) through marriage.

WORK HISTORY

Microsoft 365 Consultant, GSSNBRG (freelance)
Eindhoven Area | September 2022 – Current

Responsibilities

- Evaluated client needs and expectations, establishing clear goals for each consulting engagement.
- Liaised with customers, management, and stakeholders to better understand customer needs and recommend appropriate solutions.
- Managed client relationships through regular check-ins and updates on project progress.
- Managed multiple deadlines across several businesses to meet needs of multiple clients.
- Identified areas of improvement for clients' operations, implementing targeted solutions to increase productivity.
- Enhanced client satisfaction by delivering tailored Microsoft solutions for their specific business needs.
- Developed customized SharePoint sites for improved collaboration and information sharing within organizations.
- Researched and adopted new technologies (Microsoft 365 applications: AI (Copilot), Power Platform, SharePoint, Teams, Viva) to add value to existing offerings.
- Enabled seamless collaboration among team members through effective use of Microsoft Teams integration with other Microsoft 365 applications.
- Delivered expert consulting services on best practices for successful deployment and utilization of Microsoft 365 technologies alongside SharePoint solutions.

Achievements

- Design, Organized and roll-out of intranet (SharePoint) for Koning Willem I College, 10k+ students and 3k+ faculty.
- Design and development of DMS for 2.500+ (Technical) standards with review and publication process (Power Automate) for Sitech Services BV.
- Design, development and roll-out of DMS for major and business critical projects for Government entity Waterschap Rivierenland with SharePoint and PowerShell.

Technical Lead Productivity, Advantive
Weert, Netherlands | December 2021 – July 2022

Responsibilities

- Coordinated with cross-department teams like Consultancy, Sales, and Support to ensure seamless end-to-end delivery for our clients.
- Lead a (10+) team of consultants to successfully deliver high-quality (software) projects on time and within budget constraints.
- Enhanced system performance with thorough code reviews, debugging, and optimization techniques.
- Drove customer satisfaction by prioritizing (feature) requests based on detailed analysis of user feedback and market trends.
